Any full single-room design - £500

Over the years, CHRIS DIAMOND DESIGN have been involved with a huge range of projects, big and small. Projects are tackled whilst drawing inspiration from both the client and the project itself. The award winning studio specialises in space planning and bespoke problem solving, ranging from small house design to full developments, both residential and commercial.

At CHRIS DIAMOND DESIGN we can offer everything under one roof; we believe this streamlined process of dealing with one team, rather than separate kitchen, bathroom and furniture companies, allows for the most painless, tailored and succesfull service. First consultation free of charge.
