

## The Ultimate Winter Coaching Package

Following the success of the ultimate coaching package over the last few years, we have this year upgraded to GC Quad which also allows for full putting analysis as well as enhanced ball and club tracking. We have three different levels of packages available to suit all time commitments and as in previous years they are limited. Eddie and I have had some major success stories with the winter coaching and they do sell out very quickly. If you want to move your game to the next level for 2019 make sure you book your place ASAP.
