Winter Course Information

2019-2020

During the winter period the condition of the course and the weather often dictates that we must restrict the **usage of Buggies & Trolleys (in particular Buggies may be restricted to Blue Badge holders only)**. We will make a judgement and inform members accordingly.

As you are all aware we have invested in improving the drainage of the course over the last few years, however undoubtedly there will be times when some condition restrictions will be in place these include and not limited to:-

- **12 Hole Winter Course**
- **Winter Buggy Rules**
- **Winter Wheels (electric trolleys)**
- **Roped/ White Line Areas (buggies and trolleys must be kept outside these areas at all times)**

Winter Buggy Rules – Throughout the winter buggies must be kept to the paths and rough at all times.

At all times buggies and trolleys must not be taken on tees, greens, green surrounds and wet areas anywhere on the course.

Weekend course inspections will initially be made by the green staff any further inspections will be the responsibility of the professional shop staff.

TRAFFIC LIGHT SYSTEM GUIDELINES

Green – Course fully open with no restrictions

Yellow – Course open with restrictions on buggies (winter buggy rules apply)

Red – Course open with no buggies allowed

Black – Play suspended due to adverse weather conditions (reviewed throughout the day)
