

What is CAPTO?

CAPTO is a putting analysis system composed by a high accuracy sensor and associated software. It is highly accurate and can be used indoor and outdoor.

CAPTO measures over 30 parameters of the putting stroke.

CAPTO will be used to carry out putting lessons so you can perform the perfect stroke.

CAPTO Putting Lesson

With PGA Professional **Tom Maggs**

Observe

- ✓ High speed video of the putting stroke
- ✓ CAPTO analysis (measuring putter)
- ✓ Analysis of straight and breaking putts
- ✓ Analysis of your green reading technique

Learn

- ✓ Work through proposed changes using specific training aids
- ✓ Practice structure, skills & drills
- ✓ Further feedback and comparison

Review

- ✓ Overview
- ✓ Lesson notes to take away
- ✓ Data reports emailed to you

Nearly half your strokes in a round of golf are used with a putter, therefore improving your putting will help you shoot a lower score.

Putting lessons using CAPTO will enhance one of the most important yet under practiced shots in golf.
