

## Built with the Latest Technology

The Yorkshire Golf Simulator was built with the very best technology.

The GcQuad is the most advanced launch monitor in golf, taking 10,000 frames per second to ensure absolute accuracy. Indoor golf has never been so good.

We've coupled that technology with our custom-built facility. Designed for playability and comfort our simulator has space to play as well as space to relax and enjoy a drink or snack.

Finally, we made sure you could play the best courses in the world.

## Available courses:

- @ Pebble Beach
- Carnoustie
- @ Wentworth
- Royal Birkdale
- © Emirates
- @ Plus over a dozen more!

## Yorkshire Golf Simulator Hanging Heaton Golf Club

Our simulator is in the heart of Hanging Heaton Golf Club. It is connected to both the professional shop and the clubhouse. You are only a few yards away from our fully stocked bar so you can enjoy a beverage whilst you play.

If you haven't played indoor simulator golf before then do not worry! Our team will set everything up and tell you everything you need to know to get you going fast and make your game enjoyable.

Hanging Heaton Golf Club is known as one of the friendliest clubs around. That warm welcome continues inside our brand-new simulator where you can enjoy the golf and take advantage of our bar facilities too.
